

INTRODUCING

The Recovery Facial

by Seed to Skin Tuscany

Seed to Skin Tuscany launches a targeted facial designed for sensitive and compromised skin. Powered by The Rescue Cleanse and The Recovery Cream, the treatment works to restore barrier integrity, modulate inflammation, and reduce visible signs of reactivity, delivering clinically validated repair.

THE RESULTS

A precision treatment that strengthens barrier function, calms inflammatory responses, and restores equilibrium.

Soothe. Calm. Repair.

Soothe - Gentle Cleansing & Restorative Massage

This ritual begins with **The Rescue Cleanse**, a glycerin-to-silk emulsion that effortlessly removes impurities, pollution, and debris while supporting the skin's balance. The Restorative Rose Quartz massage envelops the skin in the soothing energy of rose quartz, known for its naturally cooling, mineral-rich composition, as gentle, sweeping movements help reduce inflammation, boost circulation, and lift and tone the skin, and targeted acupressure points calm the nervous system and release built-up tension.

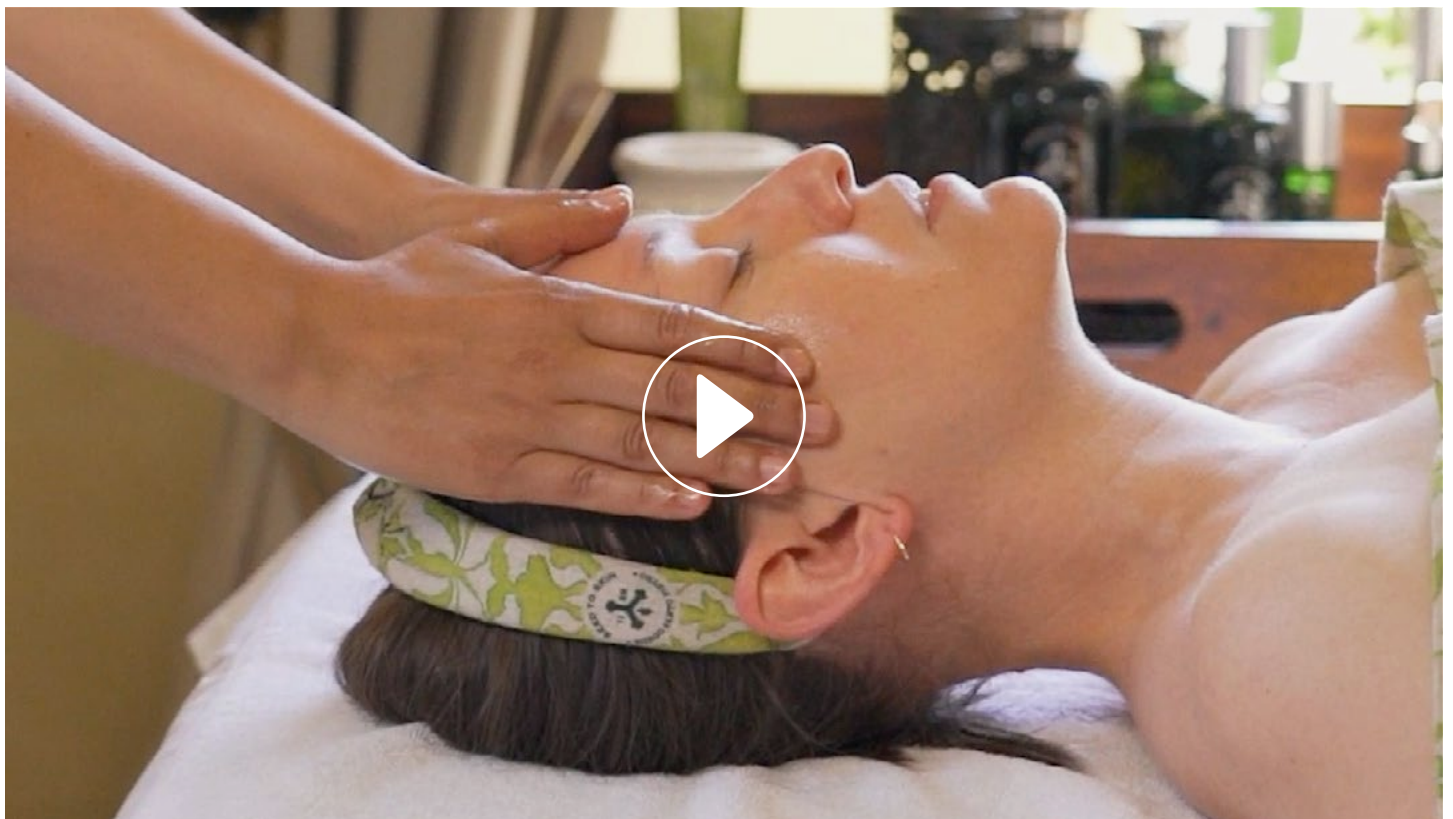

Calm - Cocooning Mask Treatment

For deep restoration and ultimate results, we cocoon the skin with an advanced recovery mask. This system delivers essential antioxidants, anti-inflammatory agents and hydrating actives to instantly calm, restore, and hydrate the skin. The treatment is complemented with a restorative neck and décolleté massage with The Massage Candle.

Repair - The Recovery Cream

The Recovery Cream is a deeply soothing formula designed as a molecular complex to target inflammation, barrier disruption and chronic sensitivity. Its luxuriously rich yet easily absorbed texture enfolds the skin, creating an immediate sensation of comfort while long-term actives work to re-establish structural integrity and cellular balance.

The treatment is exquisitely completed with **Rose Quartz Mushrooms**, whose naturally cooling touch helps refresh and rejuvenate the skin.

Product Application

The Reverse Signature Facial features our result-driven conscious skincare products for optimal efficacy:

1. THE RESCUE CLEANSE

A dual-action recovery cleanse that transforms daily cleansing into an act of repair. Effortlessly dissolves impurities while preserving the skin's natural balance.

2. THE CLARITY CLEANSE

A gentle enzymatic treatment suitable for even the most compromised skin.

3. RESTORATIVE FACIAL MASSAGE & ROSE QUARTZ WANDS

Performed with The Rescue Cleanse to soothe, tone, and encourage circulation.

4. ACTIVE DELIVERY MANTLE MASK

An advanced alginate mask — the perfect cocoon for restoring and hydrating, complemented by The Massage Candle décolleté massage.

5. THE EYE RESCUE LIGHT TIME

A 12-hour smoothing and lifting eye treatment.

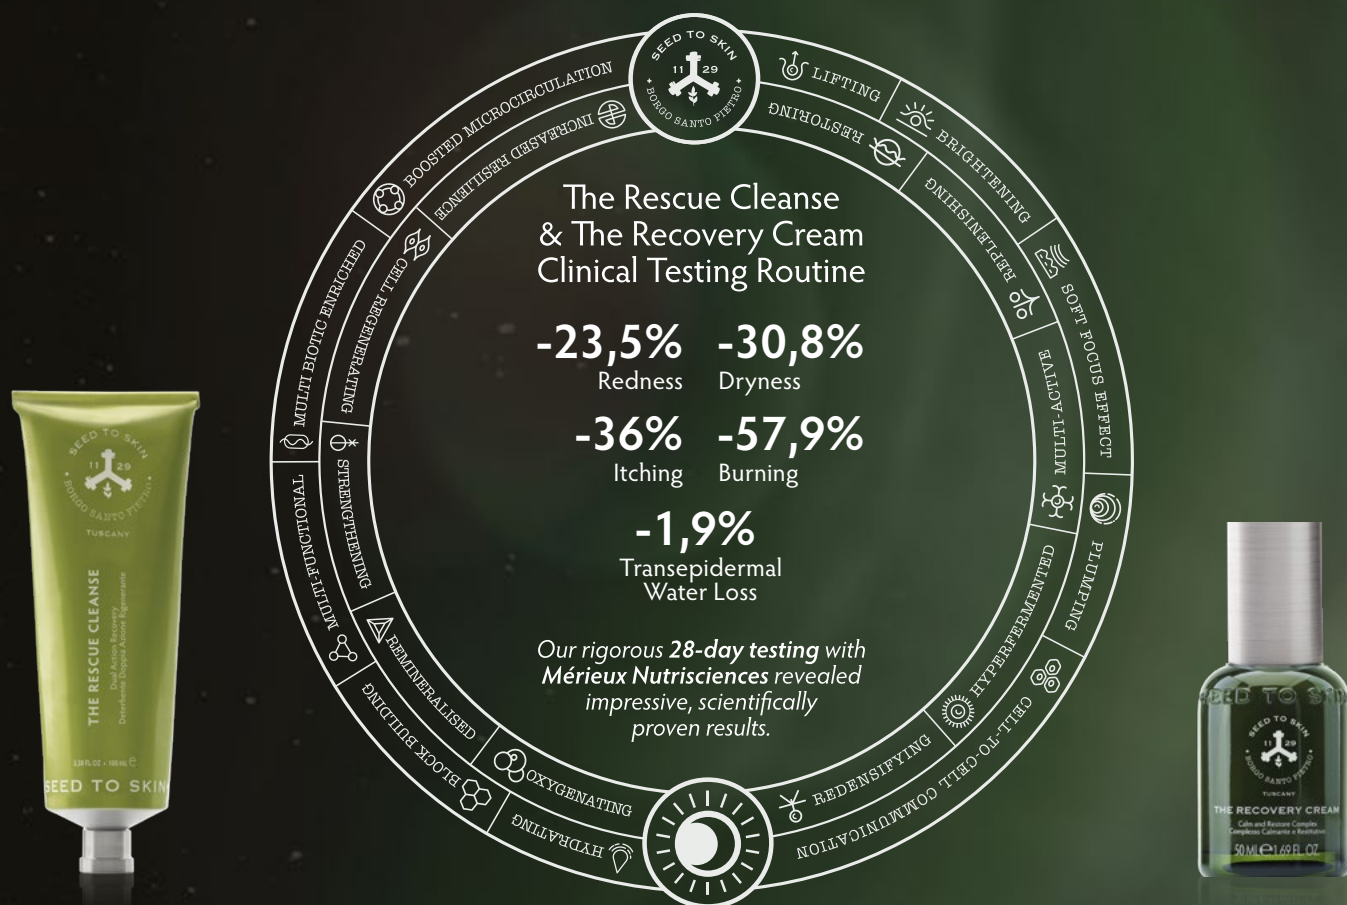

6. THE RECOVERY COMPLEX

A calm and restore complex partnered with Rose Quartz Mushrooms for pure vitality.

EFFICACY AT A GLANCE VERIFIED BY MERIEUX NUTRSCIENCES

The efficacy of the Restorative Collection was confirmed in a 28-day clinical study involving adults of all ages. Participants applied The Rescue Cleanse – Dual Action Recovery and The Recovery Cream – Calm and Restore Complex daily, and results were analysed using standardised clinical assessments.

Participants consistently described their skin as calmer, softer and more resilient, with visible improvements in tone and texture. These results validate the Restorative Collection as a curative solution for compromised skin, combining immediate soothing relief with proven long-term repair.

Redness decreased by **23.5%** after 28 days, with visible improvement within the first week.

Itchiness reduced by **36%**, confirming a significant improvement in comfort and sensory balance.

Dryness reduced by **30.8%**, while hydration remained consistently higher throughout the study.

Burning sensations decreased by **57.9%**, with participants describing skin that felt calmer, firmer, and visibly healthier.

TEWL (Transepidermal Water Loss) decreased by **1.9%**, confirming enhanced barrier repair.
